

**Royal Dutch Visio
Rehabilitation & Advice
Amsterdam**

Having a visual disability, people can still function independently. Visio supports and counsels these clients in relearning to use their capabilities and in acquiring skills. This could relate to every day activities.

Today we will pay a visit to the location of Visio Rehabilitation & Advice in Amsterdam. Here you will meet some employees and clients who can tell you all about rehabilitation and its impact on daily life. We will also take a look in the “lighting lab”. Here Visio examine the basic needs in lighting of partially sighted people, in home and work situations.

Afterwards we will drive to the center of Amsterdam for a dinner cruise. Enjoy a delicious fine dining experience whilst experiencing the breathtaking views of Amsterdam from the water!

At 19.00hrs the bus will take you back to The Hague.

Estimated time of arrival in The Hague: 20.30hrs.

Maximum participants: 50.
